Registration Process

Two Ways to Register For Classes
- The quickest way to register is online at www.jeffstateonline.com. Go to the “Community and Corporate Education” link on the web page.
- Walk-in: Walk-in registration is accepted during our regular business hours, Monday-Friday, 8:30 a.m.-4:30 p.m. at the following locations:

  Jefferson Campus
  George Wallace Hall, Room 202
  2601 Carson Road
  Birmingham, AL 35215

  Shelby-Hoover Campus
  Health Sciences Building, Room 321
  4600 Valleydale Road
  Birmingham, AL 35242

All Students should review refund and other policies prior to registration on our website.

Medical Career Programs require a high school diploma or GED. Some programs also require malpractice insurance, criminal background check, drug screen, health screen, and other items.

Students will NOT RECEIVE a Certificate of Completion without a copy of their high school diploma/GED/College Transcript on file in the Center for Workforce Education.

Call 205-856-7710 for specific information.

The phlebotomy-training program is a non-credit, 200-hour program designed to train individuals in a classroom lecture and clinical setting to become a certified phlebotomist. Upon satisfactory completion of the program, students will earn a Certificate of Completion and will be eligible to take the American Society of Phlebotomy Technicians (ASPT) certification test. Classes meet for lecture twice a week for twelve weeks and the clinical practicum will be held for four weeks. Specific times of clinicals will be announced but are scheduled for three days a week, eight hours a day, generally from 7 a.m. to 3 p.m.

Class days and times will be announced for each semester.

Class enrollment is limited to 12 students. Jefferson State will accept eligible students on a first come first serve basis upon meeting all requirements as set out. This includes the completion of the registration form, payment of the course in full, and scoring a minimum of a 70 on the Compass Exam. Students who do not score a 70 on the Compass Exam will not be eligible to register for the program.

Students admitted to the program are expected to have and maintain a satisfactory level of health, including freedom from communicable diseases. Students are also required to submit medical forms which indicate they are healthy and submit to drug testing before attending clinicals. Failure to pass a urine drug screen will prevent the student from completing this program and no refund will be given.

Students progressing to the final month of the clinical experience must show evidence of hospitalization insurance, student malpractice coverage, and proof of Hepatitis B immunizations prior to entry into the laboratory clinical rotation.

Students progressing to the final month of the clinical experience must show evidence of hospitalization insurance, student malpractice coverage, and proof of Hepatitis B immunizations prior to entry into the laboratory clinical rotation.
