ALLISON-SMITH COMPANY
ELECTRICAL CONTRACTORS & ENGINEERS

About Allison-Smith Company

Allison-Smith is an employee owned, *client-driven* organization.

Founded in 1943 the Allison-Smith Company LLC has evolved from a premier Atlanta electrical contracting and engineering firm into a company with a national and international presence. Our founder, Robert Allison, instilled in the company a culture of applying electrical engineering acumen to the process of construction. Today, close to 50% of our employees are working on projects outside of the state of Georgia.

Our services range from electrical distribution, mission critical power, lighting systems and controls, lighting color tuning, security systems, access control systems, fire alarm systems, voice and data systems, building automation systems, smart buildings, IoT integration, AV, and fiber optics.

What is an Apprenticeship?

Apprenticeship allows you to get an accredited qualification while working and earning wages in the career of your choice. It provides an opportunity to develop valuable skills and experiences that will open doors to vast career opportunities. An apprentice typically works towards nationally recognized qualifications while also developing technical skills and on-the-job knowledge. An apprenticeship might be right for you if you enjoy hands-on learning and want to jumpstart your career.

5 Pathways to a Career

- Start work directly after high school
- Attend College
- Enroll in a two-year technical college program
- Join the military
- Chose **apprenticeship program** or trade school
