

GET TESTED. GET BACK TO LIFE.

Sentinel Testing

You've been selected for randomized Sentinel testing.

To help identify if and how much COVID-19 is spreading on campus, weekly Sentinel Testing — or random testing of a small student population, regardless of symptoms — is needed. However, for this testing to be effective and representative of the student body, we need your help.

Before you can be randomly selected to participate in this all-important Sentinel Testing, you must first sign up.

Sentinel Testing

Here's how:

- Go to healthy.verily.com today
- Create an account using your school email
- Confirm your account via email
- Check your school email frequently for testing information
- Schedule a test appointment after random selection

We all want a campus free from COVID-19. Here's your chance to be part of the movement to bring campus life back — and better than ever before.
