Registered Nursing Program

Jefferson State
Community College

jeffersonstate.edu/nursing

Registered Nursing Program

The Registered Nursing Program at Jefferson State Community College is a two-year associate degree program accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN) and approved by the Alabama Board of Nursing.

Nursing program graduates take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and are employed in area hospitals as beginning associate degree registered nurses.

The Nursing program combines general education and nursing courses in sequence that allows the student to develop basic skills to the practice of nursing. Nursing and general education courses are taught at all four Jefferson State Campuses.

Students must be admitted in the nursing program to take nursing classes.

Program Entrance Requirements

Students are admitted to the RN program every semester. Applications are evaluated on GPA, selected coursework, mathematical scores, and ACT scores. Admission will be on ranking scores. See the website for more information and updates at www.jeffersonstate.edu/nursing.

Informational handouts and the minimal requirement check sheet are available for pick up in the Advisor's Offices or online at www.jeffersonstate.edu/RNinfo.
