

Computer Technician Professional Opportunities

Computer Technicians can be found working in a variety of industries. Possible positions range from technician who repairs hardware and software in a retail store, to a telephone technical support advisor, to a member of an organizational IT team. This program will prepare you to be a valuable asset to any organization!

- Career Programs require a high school diploma or GED.
- Students will NOT RECEIVE a Certificate of Completion without a copy of their high school diploma/GED/College Transcript on file in the Center for Workforce Education.

Call (205) 856-7710 for specific information.

Computer Technician Certification Prep

Set yourself apart from the rest when you train as a Computer Technician! This program provides 21 weeks of traditional classroom instruction to lay a solid foundation for students to sit for and pass the Computing Technology Industry Association (CompTIA) certification.

The comprehensive curriculum is approved by ComptTIA and is specifically designed to:

- Prepare students to work with hardware, software, networks, and security issues
- Gain knowledge and skills needed to earn CompTIA A+ certification

Upon successful completion of the course students will be awarded a Certificate of Completion from Jefferson State Community College. In addition, students will have the option of sitting for the CompTIA A+ certification.

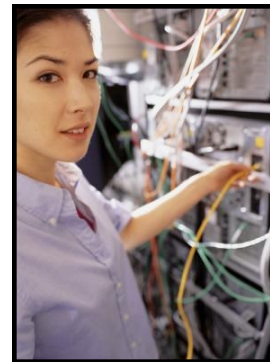

Computer Technician Certification Preparation Program Overview:

• Traditional classroom Instruction

Traditional classroom instruction is provided twice a week for three hours. The instructor-led component lasts a total of 17 weeks.

Sample Modules Include:

- Computer Fundamentals
- Networking
- Operational Procedures
- Security
- Mobile Devices

General Information:

** 17-week instructor-led course

Fees

Registration\$1199

The registration fee does not include textbook.
