Knowmia (TechSmith Relay) Handout for Students:

Knowmia (TechSmith Relay) is a video creation (lecture capture) tool that allows faculty to develop instructional videos. This software program replaces Tegrity.

Students can view videos from the links provided in the course by the Instructor.

Note: Instructors may also use Quiz questions which are built into the video (i.e. assessments) and track usage.

Web Browsers

To view videos please use one of the following supported browsers:

Desktop

- Chrome (latest version) *recommended
- Firefox (latest version)
- Safari (latest version)

Mobile

- iOS Devices: Safari (latest version)
- Android Devices: Chrome (latest version)

TechSmith Fuse for Apple Devices
Requires iOS: version 9 or higher

TechSmith Fuse for Android Devices
Requires Android: version 4.0.3 or higher
