

## ARRT

The American Registry of Radiologic Technologists (ARRT) is the board that administers the national certification examination upon completion of an accredited Radiologic Technology Program. Individuals must satisfy general qualifications for certification in accordance with ARRT guidelines. A candidate for certification by the ARRT must meet the ethics, education and examination requirements as described in the ARRT Rules and Regulations and the Standards of Ethics.

Every candidate for certification must, according to ARRT governing documents, "be a person of good moral character and must not have engaged in conduct that is inconsistent with the ARRT Rules of Ethics," and they must "agree to comply with the [ARRT Rules and Regulations](#) and the [ARRT Standards of Ethics](#)." ARRT investigates all potential violations in order to determine eligibility.

Issues addressed by the Rules of Ethics include convictions, criminal procedures, or military court martial as described below:

- Felony
- Misdemeanor
- Criminal procedures resulting in a plea of guilty or nolo contendere (no contest), a verdict of guilty, withheld or deferred adjudication, suspended or stay of sentence, or pre-trial diversion.

Please contact the ARRT at 651-687-0048 or [www.arrt.org](http://www.arrt.org) for further information concerning ethics eligibility.
