

**(EMS) – Emergency Medical Services**

**(Seniors only, or at least 17 years of age)**

*We advise CTE dual enrollment students in the shortest credential options within an AAS degree. We do this because they are the shortest credit hour options and allow students the greatest chance of completing a credential before they graduate high school. All courses in the short certificate and advanced certificate options are counted towards an AAS degree within the Career Program.*

**Special Details for EMS Career Program for DE CTE:**

This is a 1-year program for Dual Enrollment students (Aug-May). Students meet every day (M-F) on-campus for the entire year. In some cases, we offer this course in a 1 semester format at our Shelby-Hoover and Jefferson campuses.

Students are required to complete a minimum of 40 clinical rotation hours or more. Clinical rotations begin in the Spring semester and students work with the clinical coordinator for scheduling.

**A 75 is considered passing in this course program.**

- Students must complete an EMS orientation packet in addition to their DE admissions requirements.
- Students must attend a mandatory orientation prior to the course beginning.
- Students are discouraged from missing any classes
- This program adheres to the JSCC calendar, not the high school-level calendar.
- If mandatory testing for high school is scheduled (i.e. work keys) and students miss class, they are responsible for missed work.
- There are 2 Saturday obligations to complete EVOC certification.
- Students are responsible for providing their own transportation to and from clinical sites

**Academic Course Pairings:**

It is not recommended to take additional college courses while pursuing this program due to the demanding schedule and academic rigor. If students want to take college courses in addition to this program, they will need to pay for them independently.

<b>Emergency Medical Services Technician - EMT Basic</b>
