

Troup's Pizza is hiring!

Evening work is all that's available (3pm-9pm) so students are welcomed! 95% of our menu is fresh made-from-scratch recipes, which will help with the final internship program for the students graduating. I understand that a pizza joint isn't what you may imagine yourself doing. What you can expect is to be working with good mentors, being treated like family, and actually being excited and generally happy to go to work.

In-person applications only, and tours of the kitchen, are between 2pm-4pm, Tuesday-Friday.
