

BIOMEDICAL EQUIPMENT TECHNOLOGY

Jefferson State
Community College

jeffersonstate.edu/bet

THE PROGRAM:

Biomedical Equipment Technicians play a critical role within the healthcare industry. The program is designed to train students how to repair, service and calibrate sophisticated electronic medical devices that interface with the human body. Students will acquire the critical skill sets needed to obtain entry level positions in the healthcare technology field. Students successfully completing the course will be awarded an AAS degree with a Biomedical Equipment Technology focus. The current demand for technicians is at an all-time high and employment opportunities are widespread across the healthcare industry ranging from hospitals, independent service organizations to medical equipment manufacturers. Get started in this exciting career today!
