

FIELD SERVICE TECHNICIAN

TE Connectivity – Huntsville, AL

At TE, you will unleash your potential working with people from diverse backgrounds and industries to create a safer, sustainable and more connected world.

Job Overview

TE Connectivity's Field Application Engineering Teams work intimately with customers to recommend products and solutions for new and existing applications.

Identify new applications, requirement modifications and enhancements to meet customer specifications and conduct on-site installation and service of product and are responsible for all technical aspects of the sales cycle for potential application of company products to meet customer needs, including identifying opportunities; determining solutions; creating demand; preparing detailed product specifications and technical marketing support; ensuring high quality and timely project execution and conducting follow-up technical support.

Also approve operational quality of systems and equipment.
