

The background image shows three students in a laboratory or classroom setting. They are wearing white lab coats and face masks. One student is pointing at a computer monitor that displays a medical scan, possibly a CT scan of a head. The entire image has a purple color overlay.

RADIOLOGIC TECHNOLOGY

Jefferson State
Community College

jeffersonstate.edu/rad

THE PROGRAM:

Radiologic Technology is the art and science of producing diagnostic medical images using ionizing radiation (x-ray) in diagnosis and treatment by physicians. The five-semester program includes comprehensive coursework and clinical education beginning in the first semester. The on-campus laboratory offers students the opportunity to learn radiographic imaging utilizing digital and mobile radiography.
