

A photograph of three male students in a computer lab, focused on their work at computer monitors. The image is overlaid with a semi-transparent purple filter. The student in the foreground on the right is looking intently at his screen. The student in the middle is also looking at his screen, and the student on the left is partially visible, also working.

COMPUTER INFORMATION SYSTEMS TECHNOLOGY

Jefferson State
Community College

jeffersonstate.edu/cis

THE PROGRAM:

The Computer Science Department offers five short certificate options: App Development with Swift, Computer Programming, Cybersecurity, Networking, and Web and Mobile Applications. A student gains admission to the Associate in Applied Science Program by completing the corresponding certificate program. This curriculum is designed to serve students planning to enter the field of computer information technology and those already employed who need specialized skills required by the computing industry. Options are available for concentrated study in Computer Programming, Cybersecurity, Networking, or Web and Mobile Applications.
