Blackboard to Canvas…

- Notifications (Account) based on preferences.
- Email (Global Menu) – similar to “course messages” but no option to email student account (i.e., Send Email).
- Modules (Sequence of Learning) vs. Folders. Can move items in Modules.
- Rich Content Editor – upload documents/images; add links; add YuJa.
- “Assignment” Menu Link (Index) contains all graded activities and weighted columns tied to the Grade Book.
- Assignments – can not “reset” submission – use 2 attempts.
- “Comment library” to use in Speed Grader – feedback (save time).

7

Blackboard to Canvas (cont’d)…

- Question Sets called Question Groups - do not migrate. You do not lose questions. Set up using Classic Question DB or New Quizzes Item Banks.
- Quizzes will migrate as Classic version.
- Classic Quizzes Question DB - all migrated quiz questions will show under “Unfiled” category. Can export quizzes as Question DB to set up (i.e. Question Groups). Can move/copy within Question DB.
- New Quizzes uses Item Banks (no imported content). Can export QTI Classic Quiz and import to Item Banks. Can share New Quizzes/Item Banks.
- Create groups under “People” menu.

Pros/Cons

	Start Fresh	Gather and Upload Separately	Use Migrated Course
Pros	Create/Upload new content, tests, assignments, discussions, rubrics, etc.	Export course materials; Download content, Tests, Pools, Surveys; Rubrics. Can export Pools as QTI.	Copy/Paste into Template. Copy Migrated Modules into Template. Only use what you need. Do Not Copy entire course.
Cons	Recreate Content, Tests, Assignments, Discussions, Rubrics.	Can't download Assignments and Discussions – only through course export. Quizzes do not populate in Question DB or Item Banks. Question Sets do not populate the same from Bb to Canvas. Download Collaborate Recordings and re-upload as mp4 (YuJa or Canvas Studio). "IMS" import "gremlins" in files area. Re-do Rubrics. More "clean-up."	Clean up content from Bb to Canvas. Re-set up Question Sets from Bb to Question Groups. Use QTI file export from Bb Pools or Classic quizzes. Import QTI file as Question DB in Classic Quizzes or Index Bank in New Quizzes. Migrated Unfiled Questions - Can move/copy test questions within Classic Quiz Question DB – takes time.

Read the Small Print…

1. Can I copy from my migrated Canvas course to Fall Shell? We do not recommend copying entire course – copy modules that have corresponding content (i.e., Module_Topic – “Course Materials” files, assignments, discussions, quizzes).
2. Will I have to re-add my YuJa videos? Yes. Do not copy item links from migrated course.
3. Will I have to re-add my Publisher links? Yes. Do not copy Publisher links from migrated course.
4. Does Canvas use SafeAssign for Plagiarism Checking? No. May use Turnit In (in process).
5. Will Canvas use Ally? Yes. Instructors can also use the Accessibility Checker in the Rich Content Editor and Ally Report Checker on the Course Menu.
6. Will my recordings from Collaborate migrate over? No. Can download and re-upload using YuJa or Canvas Studio.
7. Can I upload video files in Canvas? YuJa license extended for another year or can use Canvas Studio. Do not upload video files directly in Canvas.

Read the Small Print…cont’d

8. Is there a Canvas Course Size limitation? Yes.
9. Is there a file size limitation to linking from MS OneDrive to Rich Content Editor? Yes. 100 MB.
10. Can I download Bb course files? Yes. Can create zip of files to download on a local computer.
11. Can I export/download Tests/Quizzes/Surveys/Question Pools? Only export Question Pools as QTI format if supported question type.
12. How long will Bb courses be available? Until end of the year.
